Education

Visvesvaraya Technological University (VTU), Bengaluru

Nov 2022 - Present

Bachelor of Engineering in Computer Science and Engineering

CGPA: 7.5/10.00

Army Public School, Hempur

Apr 2021 - May 2022

Class XII, C.B.S.E

Percentage: 78.60%

Army Public School, Hempur

Apr 2019 - May 2020

Class X, C.B.S.E

Percentage: 82.40%

Projects

SmartFlow (AI-Powered Task Management Assistant)

Technologies: Prompt Engineering, Agent Creation, MCP Server, Google AI Studio

- Engineered an AI-powered task management assistant utilizing custom agent creation and prompt engineering to optimize user workflows and task automation.
- Integrated an MCP Server to allow the AI agents to securely access and interact with external data environments and APIs.

Advanced Skin Cancer Detection System

Technologies: Python, Flask, React, Tailwind CSS, XGBoost, Roboflow API, SQLAlchemy

- Built a full-stack AI web app for skin cancer detection achieving 85-90% accuracy on test data using ensemble ML models.
- Designed 10+ Flask REST APIs with SQLAlchemy and a responsive React + Tailwind UI supporting real-time image analysis.
- Implemented XAI, confidence scoring, and automated 100% of medical report generation via PDF export.

Drug Inventory and Supply Chain Tracking System

Technologies: React.js, Node.js, Express.js, MongoDB, REST APIs, Authentication, Data Visualization

- Engineered a full-stack drug supply chain platform enabling end-to-end traceability across 6 stakeholder roles and improving process transparency by 35%.
- Implemented real-time inventory monitoring and automated alert systems, reducing stock-outs by 30% and improving fulfillment turnaround by 25%.
- Developed secure role-based access control and analytics dashboards, strengthening data security and accelerating operational decision-making by 40%.

Technical Skills

- **Languages:** Java, Python, JavaScript, HTML/CSS
- **Databases:** MySQL, Oracle
- **AI Development & Frameworks:** Prompt Engineering, MCP (Model Context Protocol) Server, Agent Creation, Google AI Studio
- **AI-Powered Developer Tools:** GitHub Copilot, Cursor, Antigravity, Codex, Claude, Chat2DB
- **Developer Tools:** GitHub, Maven, Gradle

Scholastic Achievements

- Secured 1st position in a competitive Code Debugging Session, demonstrating strong problem-solving and logical analysis skills.
- Awarded 2nd position in Python for Data Science Workshop, showcasing practical proficiency in data handling and analysis.
- Won 2nd position at Project and Research Expo 2025 for the project "Skin Cancer Detection Using Deep Learning Techniques".
